WANOSCG GENERAL MEETING MINUTES

Wednesday, 18 September 2013

Meeting held at: BGPA Boardroom, Kings Park.

Meeting opened: 7:34 PM

CIRCULATION OF REPORTS:

Attendance Book and Treasurer's Report were circulated to the members

ATTENDANCE:

37 members present Apologies: 7 visitors: none

RAFFLE: Kindly donated by Peter Proudfoot

PREVIOUS GENERAL MEETING MINUTES

The General Meeting Minutes are a true and correct record of the meeting of 21 August 2013.

Moved: Matz Dahlkamp seconded Urszula Kokosinski *Carried*

1 BUSINESS ARISING FROM THE PREVIOUS MEETING

- 1.1 *WANOSCG 40th publication:* John Ewing told the meeting that significant progress has been made in compiling the historical section of the publication. He **reminded** members that if they had any of the "missing" newsletters and/or bulletins listed in the September bulletin they should contact the 40th year committee. The book is likely to be 80-100 pages in length. The 40th year committee is seeking **member's** preference as to the shape, size and orientation of the book, ie square, A4 landscape or A4 portrait. A straw poll conducted at the meeting suggested members were equally divided on whether the book should have a soft or hard cover.
- 1.2 Marina Karyagina told the meeting that based on pricing from Blurb, 50 or more photo books would cost <\$40 with a softcover and <\$50 with a hardcover. John outlined three options for payment for the book. Firstly members pay the full cost, secondly the club subsidises part of the cost and thirdly the club pays for one book per membership. It was suggested that the committee needs to discuss the financial issue and come back to the members for approval.

- 1.3 John and Marina reported that, disappointingly, only 5 personal stories have been received to date. Since the editors will need time to plan and arrange the layout of this part of the book, members were urged to submit their personal stories (<200 words together with photos of themselves and up to 6 orchid photos) by the end of September.

- 1.4 *40th year commemorative garments:* Donna Wajon informed members that orders and payments for garments could be placed tonight, sent to directly to herself, or made at the 16th October General meeting. Order forms were distributed with the September bulletin and made available at the meeting. Donna also told the meeting that the club logo, with "Est. 1974" below, would be on the pocket or pocket side of the garment and in large font on the opposite side of the garment the words "40 Years" and below "1974 – 2014".

- 1.5 *Personal field trip report form for general meetings.* Members presenting personal field trip reports were urged to use the forms provided on the table. The bulletin editor will email the form to members so they can prepare their lists in advance of meetings. Eddy Wajon pointed out that members should be using the Field Trip Reporting Form that Donna created and recently updated. Not only should this form be sent to the Registrar for inclusion in the club's database but a copy sent or given to the Secretary as a record of personal field trips.

2 TREASURER'S REPORT

	For August	1 st Feb to 31 st August
Income	\$222.04	\$4831.54
Expenditure	\$166.00	\$1688.46

3 CORRESPONDENCE

Mail received for the period 22 August to 18 September 2013:

- 3.1 Various electronic and hard copies of newsletters and bulletins from other Orchids groups
- 3.2 Australia Post Re: Bill for \$27.00
- 3.3 Andrew Brown Re: Draft ADORP article for the NZ Orchid Group
- 3.4 Jaya Vaughan Re: helping community groups associated with the Eastern Hills Catchment Management Program to identify orchids in their local reserves and parks

- 3.5 Donna Wajon Re: Quote From: Leigh Mack - Willetton Uniforms
- 3.6 Kerry Fewster Re: orchid identification
- 3.7 Marina Karyagina Re: WANOSCG 40 Book pricing (blurb photo book)

Outward correspondence: Emails to:

- 3.8 Jaya Vaughan Re: Enquiry for help with identifying orchids
- 3.9 Kerry Fewster Re: orchid is a Purple Enamel Orchid

Business Arising from Correspondence: Nil

4 FIELD TRIP REPORT:

- 4.1 *Bulbarnet Reserve 31st August*: Reported in the September Bulletin
- 4.2 *Bindoon 15 September survey on the Kelly's property*: Despite the dry June a number of orchid species were found across a range of habitats. This very successful trip was rounded off by a visit to a site suggested by Andrew Brown on Neaves road. It yielded large numbers of *C. arenicola* and associated species.
- 4.3 *Corrigin 21/22 September*: There will be a weekend field trip to the Corrigin region led by Margaret Petridis and Robin Campbell. Members will need to arrange their own accommodation for this trip. Please let Margaret Petridis know by email [redacted] if you are going.
- 4.4 *Bremer Bay 28/29/30 September*: members need to organise their own accommodation for this trip. Please let Margaret Petridis know by email [redacted] or phone [redacted] if you are going.
- 4.5 *19th or 20th October Brookton Highway*: Proposed trip to be led by Paul Winthrop

Personal Field Trips:

- 4.6 Ross and Margaret Fox: a bad season for Kalbarri (September): only 1 flowering specimen of Bill's rufous greenhood and no *Thelymitra sargentii* where there had previously been numerous flowering plants.
- 4.7 *Howard Loosemore*: Piney Lakes (1/9/13): *Caladenia latifolia* (with white form); Warwick Open Space (8/9/13): *Diuris* species, *Caladenia discoidea*, *Caladenia flava subsp. flava*, *Elythranthera brunonis*; Ellis Brook (8/9/13): *Caladenia longicauda subsp. longicauda*, *Diuris* species, *Caladenia flava subsp. flava*, *Elythranthera brunonis*; Wireless Hill (17/9/13): *Caladenia arenicola*, *Caladenia flava subsp. flava*, *Caladenia latifolia*, *Caladenia georgei*, *Diuris* species, *Lyperanthus serratus*,

Prasophyllum plumiforme; Bold Park: disappointing as very little found.

- 4.8 *Frank O'Connor*: Charles Darwin Reserve "Red Hands" Breakaway (August/September): *Cyanicula amplexans* (200+), *Pterostylis* sp "hairy" (2), *Ericksonella saccharata*; Edna Springs: *Thelymitra antennifera* (50), *Thelymitra petrophila* (100+), *antennifera x petrophila* (6), *Cyanicula amplexans*, *Diuris* species; Breckler Park, *Dianella* has good numbers of orchids this year.
- 4.9 *Eric Swarts*: Ferndale Canning River Park (September): ~40 species have been seen here over the years including *Ericksonella saccharata* (the Sugar orchid) this year; Ferndale primary School site: *Caladenia attingens*.
- 4.10 *Justin Brown*: Pingaring (11/9/13): *Caladenia graniticola*, *Caladenia roei*, *Caladenia radialis* and *roeii x radialis*; Hyden/Wave Rock (12/9/13): *Caladenia roei* - a really good year, *Caladenia mesocera*, *Pyrochis nigracans*; Ravensthorpe (12/9/13): *Caladenia brevisura*, *Pterostylis allantoidea* (the Shy Greenhood); Varley (12/9/13) *Caladenia radialis*, *Caladenia microchila*, *Pterostylis mutica*, *Ericksonella saccharata*; *Stirling Range* (13/9/13): *Caladenia plicata*, *Caladenia bryceana*, *Caladenia pectinata*; Jerramungup (13/9/13): *Caladenia multiclavata*, *Caladenia cairnsiana*, *Caladenia x ericksoniae*, *Caladenia falcata*, *Caladenia hirta subsp. rosea*, *Caladenia pulchra*, *Caladenia polychroma*
- 4.11 *Noel Hoffman*: Eneabba and Depot Hill (September): large numbers of flowering *Thelymitra crinita*. Noel asked the question "what is this the northern limit of this species?"
- 4.12 *Kim and Thea Hanson*: Tonkin Hwy verge near Towie St (15/9/13): *Caladenia arenicola*, *Caladenia flava subsp. flava*, *Diuris corymbosa*; and with Cristine Lock: Neaves Rd - Lake Adams walk: microtis species, *Pterostylis* species (short and long eared snails), *Caladenia arenicola*, *Caladenia latifolia* (with white form), *Caladenia georgei*, *Caladenia radialis*, *Caladenia paludosa*, *Caladenia marginata*, *Diuris* species,
- 4.13 *Theo Claessens*: Eneabba area (late August): *Caladenia denticulata*, *Thelymitra antennifera*, *Thelymitra pulcherrima*; Arrowsmith: *Caladenia crebra*; East of Western Flora: *Caladenia radialis* and *longicauda x radialis* hybrids

5 CONSERVATION REPORT:

- 5.1 5.1. Eddy Wajon pointed out that the orchid rescue reported in the July bulletin (6.3) and again in the August bulletin (7.5) took place at the Perth and not the Jandakot Airport. This was part of a more extended rescue of plants from the Gateway WA project. Eddy extended his thanks to the members who helped carry out the orchid salvage.
- 5.2 Eddy Wajon enquired whether the Conservation officer had sent letters to the Williams Shire about the earthworks and rubbish at the parking spot 20km from Williams or to the Woodanilling Shire about the clearing of the road verges along Robinson Rd. The Conservation officer replied that he had not, but was about to.
- 5.3 Eddy told the meeting that he had made a submission, and subsequently made a presentation, to the Cockburn City Council with respect to the Cockburn Central West Structure Plan which would have resulted in filling in of a wetland and its replacement with one 200m north, as well as clearing of the bushland area NW of the intersection of North Lake Rd and Beelair Rd and bounded by North Lake Rd to the north and east, Beelair Rd to the south and Poleto Rd to the west. Approval to develop the site in its proposed form was denied at the Council meeting on 12 September 2013. The council thanked Eddy saying that his professional submission had made their decision easier. The meeting also extended its thanks to Eddy for all his hard work in this and other conservation matters.
- 5.4 Eddy spoke about Roe Highway Extension indicating that the EPA had prepared a report giving approval for the project to proceed. There is a 14 day appeal period which ends on 27 September. Eddy tabled a flyer with some information on how to go about making such an appeal.
- 5.5 Eddy Wajon informed the meeting that a permit has been granted for clearing at the Banjup site, but only for that vegetation that was part of previous revegetation of the site. Management plans are being drawn up for conservation of the area containing *C. huegelii*.

6 GENERAL BUSINESS

- 6.1 *Octogenarian's Night*: Members were reminded that WANOSCG celebrates its octogenarians at the October General Meeting. If members know an octogenarian who may need transport to that meeting

they should contact them and offer their assistance.

- 6.2 *Field Guide to the Orchids of Western Australia* by Andrew Brown, Kingsley Dixon, Christopher French and Gary Brockman: WANOSCG is not going to place a bulk order for this book due to the small discount being offered by the publisher. Instead order forms were circulated with the September bulletin so that members could place their own orders.
- 6.3 *Christmas Party*: Members were asked to forward any ideas for the place and date of this year's Christmas function/trip to the committee as a decision on this has to be made soon.
- 6.4 Information on WANOSCG Foundation Members: Marina Karyagina asked members who had any information on Beryl Yates, Henry Lodge or Ross Millton to contact her.

7 GROWER'S TABLE

Clive Pegler tabled two plants: *Diuris amplissima* and *Caladenia calcigina* (this plant came from the recent orchid rescue at Perth Airport)

8 PRESENTATION

Bill Kosky, a WANOSCG member who resides in Victoria, gave a very interesting presentation on Victorian Spider Orchids. His enthusiasm and the considerable effort that he has put into understanding the many forms of several Eastern Australian Spider Orchid complexes is inspiring.

RAFFLE DRAW

Drawn by Bill Kosky – the winner was Frank O'Connor

MEETING CLOSED: 9:20 pm

NEXT MEETING: 7:30 pm Wednesday 16 October 2013

PROCEEDINGS OF THE OCTOBER COMMITTEE MEETING

The meeting had not been held at the time of publishing the Bulletin because the majority of the Committee were unavailable (many being away on the extended WANOSCG trip to find Rufus Greenhoods).

The 40th Celebration

Donna Wajon attended the meeting and presented quotes from suppliers of polo shirts and polar fleece jackets. Options for the logo on our commemorative garments were discussed. Order forms will be distributed together with the September bulletin and sample garments made

available for viewing at the September General meeting. Orders and payment for garments will need to be completed by the 16th October.

Field Trips

A field trip along Brookton Highway on the 19th or 20th of October was proposed as a replacement for the cancelled Mt Lesueur trip. The committee is looking for a volunteer to act as field trip coordinator.

40th Year Commemorative Garments

Members are reminded that orders and payment for 40th Year commemorative garments need to be finalised at or before the 16th October General meeting. Those interested in purchasing garments are asked to follow the instructions on the order form sent with their September bulletin.

Photo Competition – November General Meeting

Don't forget that the WANOSCG Photo competition takes place at the November General meeting. This year the theme is a 'Triptych' including 3 photographs of any orchid arranged on an A4 mount showing: i) the plant, ii) its habitat and iii) any other feature of the orchid.

Octogenarian's Night

The club usually celebrates its octogenarians at the October General meeting. If you know a WANOSCG octogenarian who may need transport to that meeting, please contact them and offer them your assistance.

WANOSCG 40TH YEAR CELEBRATION PUBLICATION

1. Members Orchid Stories

Orchid stories are slowly coming in. Thank you to all the members who submitted their stories. However, more stories are needed. We appreciate it is a busy 'orchiding' season now but the book depends on members' contributions. So, please take some time off and describe your favourite orchid or the most elusive one, or how you got into orchid spotting or a memorable orchid trip or the worst one. If you are stuck for

ideas, just select a couple of orchid photos and start "I like this one because....".

It is preferable that the story and the photos (2-3 of yourself and 4-6 of orchids) are in the electronic format (word, jpeg) rather than hard copy or pdf.

Please send your story to John Ewing

[redacted] or Urszula Kokosinska [redacted] or Marina Karyagina

[redacted]) or Jeanette Wheatley

2. Old Bulletins /Newsletters

As a part of our 40th Anniversary Book we would like to include chapter about history of the group's Bulletin. From the beginning until January 1978 it was a Newsletter. The First Official Bulletin was presented in February 1978. With the help of foundation members Andrew Brown, Jean Long and Alex George as well as Mark Brundrett we gathered most of the bulletins and some newsletters from the past years. We are still missing some and would like to ask members to look through their archives and help us to complete our collection. The missing newsletters or bulletins are:

1974-all
1975-Jan, Feb, Mar, April, July, Aug, Sep
1976-Jan, April, July, Aug, Sep, Dec
1977- April, May, Dec
1980-March, November
1981-September, November, December
1982-May
1983-March
1984-August, October

All the bulletins will be scanned and returned to the owners. If you can scan them yourself it will be a great help. Please bring the missing issues to the next WANOSCG meeting. The scanned bulletins in PDF form will be available to read from our Library. Thank you for your help and cooperation.

FIELD TRIP REPORTS

Perth Group – Corrigin – 21st – 22nd September 2013

Ten members joined local wildflower and orchid enthusiast Robin Campbell for a 2 day weekend field trip to Corrigin.

We met at Jubuk North Rd where it looked very dry but we had some interesting finds, including two types of *Caladenia longicauda* and two different *filamentosa* spiders, identified as *Caladenia dimidia* and sp.'Brookton Highway'. We also saw two different *Diuris* sps, *Elythranthera brunonis* and *Thelymitra antennifera* here.

In the nearby Kunjin NR we found *Caladenia falcata*, *Caladenia* sp. 'Brookton Highway', *Caladenia roei*, *Caladenia flava subsp flava*, *Caladenia hirta subsp hirta*; *Diuris* sp, *Ericksonella saccharata*, *Pterostylis picta* in bud, *Pterostylis sargentii*, *Prasophyllum gracile* and *Thelymitra*'s in bud. An exciting find were numerous hybrids between *Caladenia roei* and sp. 'Brookton Highway' that varied in colour from green/yellow, to red and pink and white striped.

On the Wildflower Drive west of Corrigin we saw *Caladenia vulgata*, *pulchra*, *falcata* and *roei*; *Elythranthera brunonis* and *Thelymitra campanulata*. Nearby around and above a creek crossing we found *Thelymitra*'s in bud, some of the *Caladenias* seen previously, *Pterostylis recurva*, *Pterostylis sargentii*, *Pterostylis* sp. 'dwarf' (bird) and *Cyanicula gemmata*.

Sunday morning dawned overcast and we dodged rain during a visit to bush near the Cemetery where we found *Prasophyllum cyphochilum* in huge numbers, *Prasophyllum sargentii*, *Elythranthera brunonis*, *Pterostylis recurva* and *Caladenia roei*, *falcata* and *flava*.

The day fined up and we headed out to Pitman's bush on private property. We had some interesting finds, including a large colony or two of snails, still quite fresh with tall sepals and not very hairy stems. We also found *Pterostylis spathulata*, *recurva* and *sargentii* in flower, *Ericksonella saccharata*, *Diuris* sps, *Prasophyllum gracile* and *Corunastylis* seedpods. A few different small spiders were found which stimulated discussion about their ID...probably *Caladenia dimidia* and sp. 'Brookton Highway'. *Caladenia falcata* and *flava*, and *Thelymitra*'s in bud were also seen.

We all agreed it had been a wonderful weekend with well over 30 species of orchids seen. Thank you to all who attended.

Robin is always very happy to show people around if it fits into her very busy schedule. She was delighted with what we found over the weekend. She is currently putting the finishing touches into a new brochure on 'Orchids of Corrigin'.

Margaret Petridis.

Caladenia roei hybrid

Caladenia roei hybrid

Caladenia pulchra – Slender spider orchid

Caladenia sp Brookton Highway

Pterostylis sp 'dwarf' - Dwarf Bird orchid

Prasophyllum sargentii - Frilled leek orchid

Perth Group – Bremer Bay – 28th – 29th September 2013

The Bremer Bay field trip was a great success despite inclement weather on the Sunday. Local wildflower and orchid enthusiast Barbara Miller-Hornsey was joined by 34 members of WANOSCG to explore areas within the townsite and further afield.

Species found amongst sites in town were *Caladenia decora*, *pectinata*, *cairnsiana*, *flava*, *heberleana*, *reptans*, *longicauda* subsp. *australora* and hybrids; *Thelymitra macrophylla*, *graminea*, *occidentalis*, *flexuosa*, *benthamiana* and hybrids; *Elythranthera brunonis*, *Microtis media*, *Prasophyllum fimbria* and *calicicola*; *Diuris decremanta* and *Lyperanthus serratus*.

On Saturday we first split up into small groups and explored at least 4 sites within the town and then all joined up for a convoy out along Point Henry Rd where we found *Pterostylis turfosa*, *Thelymitra granitora*, *Caladenia bicalliata* subsp. *bicalliata*, *Thelymitra occidentalis*, *Prasophyllum calcicola* and two different snail orchids, possibly *Pt. sp. 'coastal snail'* and *Pt. sp. 'southern granites'*.

A walk out to the beach from the Beaches caravan park at the end of the day did not reveal any new species, but those who made it were rewarded by a spectacular view of the beach and ocean.

On Sunday it dawned overcast and rained on and off throughout the day. Dressed in wet weather gear and holding umbrellas we explored in the burnt area near the Bremer river and found some of the *Caladenias* seen on Saturday plus *Caladenia barbarossa* and *falcata*; *Pyrorchis nigricans*, *Microtis alba*, *Cyanicula gemmata*, *Elythranthera brunonis*, *Leptoceras menziesii*, *Prasophyllum elatum*, *giganteum* and a dark leek we think is *Prasophyllum triangulare*.

Along Doubtful Islands Rd we stopped twice and explored the burn, finding finished flowers of *Prasophyllum cucullatum*; *Thelymitra campanulata*, *occidentalis*, *benthamiana*, *vulgaris* and *graminea*; *Microtis media*, *alba* and *alboviridis*; *Caladenia decora* and seedpods of *Caladenia arrecta*.

Near the end of Murray Rd we found *Caladenia attingens* subsp. *gracillima*, *discoidea*, *Elythranthera brunonis* and a *Caladenia* hybrid. We continued on to the Gairdner River crossing where we found *Pterostylis picta*, *Caladenia dimidia*, *polychroma* and *barbarossa*.

By this time the rain had set in and most people headed back to Bremer Bay to the comfort of caravans and cabins. However, a few intrepid people continued to visit other sites in the rain in search of different orchid species and hybrids.

As the weather forecast for Monday was again for rain, it was decided not to do a group trip anywhere, but to tell people about good orchid locations to visit near Jerramungup and Borden that they could visit on their way home.

Feedback from members was that they all found interesting species and hybrids, and that the stops were very worthwhile.

Thank you to all members who came down and participated in the field trip. It was wonderful to have so many keen eyes out looking, and Barbara was delighted with what we found.

The species listed in this article is not all we saw but has been abbreviated for ease of reading and to prevent too much repetition. Any members who attended the trip who would like a comprehensive spreadsheet of orchids seen, please email me and I will send it as soon as possible.

Margaret Petridis

Caladenia heberleana – Heberle's spider orchid

Caladenia decora – Esperance king spider orchid

Thelymitra graminea – Shy sun orchid

Thelymitra occidentalis – Western azure sun orchid

Prasophyllum elatum – Tall leek orchid

Prasophyllum triangulare – Dark leek orchid

Caladenia bicalliata subsp. *bicalliata* – Dwarf limestone spider orchid

Caladenia longicauda subsp. *australora* – Southern white spider orchid

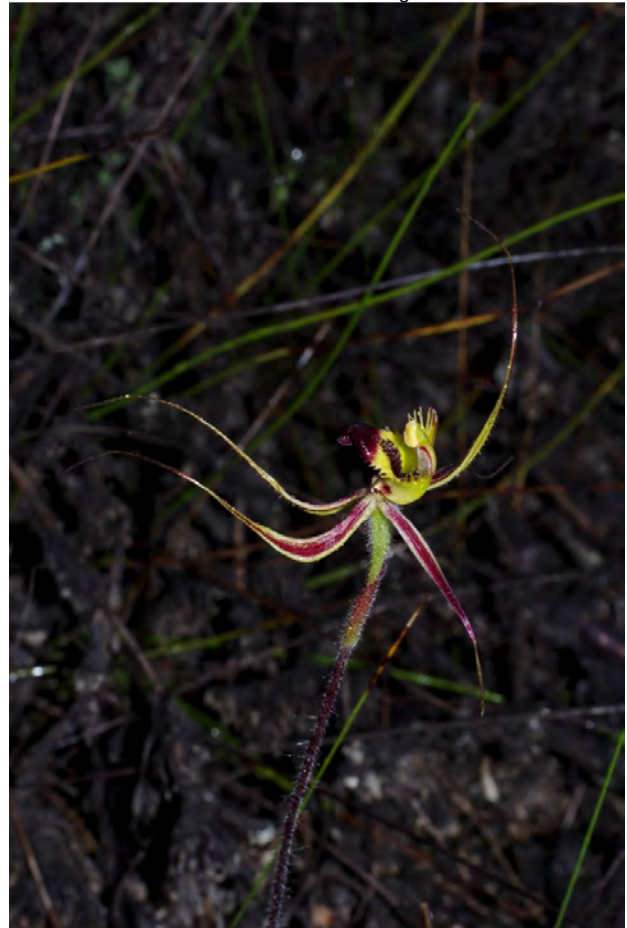

Microtis alba – White mignonette orchid

Microtis alboviridis – Scented mignonette orchid

Diuris decremента – Common bee orchid

Caladenia attingens subsp *gracillima* – Small mantis orchid

BULLETIN ARTICLES

Please email any Bulletin contributions to Paul Winthrop at

wanoscg.newsletter@gmail.com or call on [REDACTED]
[REDACTED] Articles for the next Bulletin need to be submitted by 12th November 2013

- f) *To affiliate with kindred organizations.*
- g) *To make rules for the governing of the Group's domestic affairs.*
- h) *To do all such lawful things as are incidental to or conducive to the attainment of the above objectives.*

Note: The opinions expressed by contributors to this Bulletin are not specifically endorsed by this Group

OBJECTIVES OF THE GROUP

- a) *To promote interest in and preserve Western Australian indigenous orchids.*
- b) *To learn the best means of cultivation and do all things possible for the conservation of native orchids in their environment.*
- c) *To learn their habits and keep records.*
- d) *To have field days and learn to recognize the different genera and species.*
- e) *To hold meetings for the exchange of knowledge and furthering of interest in W.A. orchids.*

COPYRIGHT

All articles and images appearing in the Bulletin remain the property of WANOSCG or the original owner. WANOSCG is happy for any of the articles, items or images to be used by another orchid society for a non-profit purpose providing the society acknowledges the source and the author.
